If you are required to pass the OMPT test to be considered for admission to Mykolas Romeris University, please note that **you are allowed 2 attempts per intake**.

You have schedule the test at least three days in advance. It might take up to 8 business days to get your results, as OMPT tests are manually graded. Please plan accordingly, as **we need to receive your results in 2 weeks after receiving your application fee payment**.

Successfully passing the OMPT test means that you meet the mathematics requirement, but it does not guarantee a place in the programme.

Requirements

OMPT type	Programme	Minimum score
OMPT - A	All programmes	55%
OMPT - E	Psychology, Game Development and Digital Animation, Digital Media Design, Business Management and Startup Building, Global Business and Modern Marketing	55%

IMPORTANT:

If an additional integrity review conducted after the issuance of OMPT certificates establishes that the validity of the test results cannot be verified, and it cannot be confirmed that the results reflect the test taker's own performance in accordance with OMPT test rules, such results shall be declared invalid and must not be accepted or relied upon for admission or academic evaluation purposes.

The affected test takers shall be notified separately by the OMPT specialist. Their certificates shall be withdrawn, and they shall be suspended from taking any further OMPT tests until the specified suspension period has expired.
