

Erasmus Intensive Program Summer School 2011

Agros, Cyprus

July 31-August 21, 2011

5 ECTS

Reconfiguring Values and Knowledge for Sustainable Communities

University of Cyprus; Mykolas Romeris University, Lithuania; Queen's University, Belfast

Funding eligibility for students from Partner Institutions

Deadline: April 12, 2011

The Summer School Program, "Reconfiguring Values and Knowledge for Sustainable Communities" is a three-week transdisciplinary program on sustainable communities and environmental studies. The theme of sustainability will be explored through different disciplines, such as environmental engineering, economics, forestry, geography, humanities, law, social and international studies.

The program is open to graduate students (MA and PhD) and final year undergraduates.

We welcome students from the following disciplines: archaeology, architecture, biology, cultural studies, environmental studies, engineering, geography, history, law, literature, natural sciences, philosophy, and social and political sciences. We also encourage students with a broad interest in environmental studies to apply.
