WHY IS IT WORTH CHOOSING?

Quality. In 2016, foreign expert group confirmed the quality of the program and then received accreditation for the longest possible term – 6 years (until 2022). **Uniqueness.** It is the only Bachelor programme in Lithuania that is aimed at Children's Rights to Protection. After graduation you will be able to: tackle with arising arguments and use the most innovative assistance strategies; gather community for teamwork and effective social pedagogy assistance; plan and implement various projects – it will help to ensure a self-sufficient workplace; plan a career of your own or of others by distinguishing objectives of career, applying coaching strategies.

“When I was studying social pedagogy, I met a lot of people who changed my life: I have attended international projects recommended by the university, I left the country twice with the Erasmus+ programme and I have done internship for four times!”

Andželika Dočkytė, graduate

CAREER PROSPECTS

Graduates of the programme will be able to work at: children's rights protection institutions, family support, educational and other public institutions (schools of various types, vocational training centres, preschools, etc.), education departments, pedagogical-psychological services, rehabilitation and special care centres, hospitals. They will be able to work as entrepreneurs as well.
