

MYKOLAS ROMERIS UNIVERSITY AND VYTAUTAS MAGNUS UNIVERSITY ADMISSION RULES FOR DOCTORAL STUDIES IN LAW IN 2025

1. General provisions.

1.1. Doctoral studies in the field of Law Science (S 001) are carried out according to the [Regulations of the Doctoral Studies](#) in the field of Law Science of Mykolas Romeris University and Vytautas Magnus University.

1.2. Duration of studies: full-time – 4 years, part-time – 6 years.

1.3. Persons, who hold a bachelor's degree in Law and a master's degree in Law or a single cycle master's degree in Law, are eligible to enter the competition for admission to the doctoral studies. A person holding a bachelor's degree in Law and an LL.M. degree in Law is eligible to enter the competition if he/she has published at least two scientific articles in peer-reviewed law scientific journals, and is the sole author of at least one of which.

1.4. The competition, studies and dissertation preparation are implemented in Lithuanian or English.

2. Admission procedure.

2.1. Applicants willing to study in Lithuanian have to pass a test in a foreign language (English, German or French). Only successful applicants can defend a research project. Applicants, who provide a valid certificate indicating having knowledge in foreign language level C1 (international test evaluation not less than: English – TOEFL 80 + 15 for essay – computer version; IELTS – 7; German – TestDaf – Level IV; French – DALF) are not obliged to take the test. Applicants from 2023 or 2024 who successfully passed the test in a foreign language during the admission to Mykolas Romeris University and Vytautas Magnus University (hereinafter Doctoral institutions) doctoral studies in Law and provided a certificate proving that, are also exempt from foreign language test. If an applicant has a bachelor's or master's or LL.M master's or single cycle master's degree in Law in one of languages mentioned above, he/she doesn't have to pass the test.

2.2. Applicants willing to study not in Lithuanian but in English have to pass a test in English language. It is not required to take the test in the cases mentioned in the article 2.1.

2.3. Admission to doctoral studies is organised by order of an open competition, forming one common priority list for both institutions according to the highest competitive scores. An applicant can apply for up to two dissertation topics by providing different research projects for each of them.

2.4. The competition is conducted by the Mykolas Romeris University and Vytautas Magnus University Doctoral Committee of Law Science Field (hereinafter Committee).

2.5. Competitive score (CS) is estimated according to this formula:

$$\mathbf{CS = 0,40*DC+0,30*RP+0,15*GPA+0,15*SP}$$

where:

DC – average of scores given for research project defence;

RP – average of assessments for scientific research project;

GPA – grade point average of the marks in annexes/supplements to bachelor's and master's or LL.M master's or single cycle master's diplomas;

SP – points for scientific publications in Law (converted to a ten-point system: the maximum sum of points is equal to 10, other applicants are ranked proportionally).

2.6. Points for each scientific publication in Law are allocated according to the attached table and converted to a ten-point system (Annex 1).

2.7. In the case applicants receive equal scores an applicant with higher scientific publications (in law) score shall be given a priority. In the case applicants receive equal number of scientific publications scores an applicant with higher diploma score shall be given a priority. If in both cases scores are equal an applicant having scientific publications in the chosen topic of research project shall be given a priority.

2.7.1. The average of diploma's supplement is rounded to nearest hundredth part of number.

2.8. Only applicants who submitted the documents specified in the article 3 according to the admission timetable shall be admitted to the competition.

2.9. All applicants must attend a meeting of the Committee (defence of the research project). If, for important objective reasons, the applicant is unable to attend the meeting of the Committee, the Committee may decide to interview the applicant remotely. The applicant must inform the Committee in advance of the existence of important objective reasons why the applicant cannot attend the meeting of the Committee.

2.10. Under important objective circumstances, a meeting of the Committee may also be organized remotely.

2.11. Only those applicants whose scientific research project is evaluated by a final mark (average of RP and DC points) not lower than 7 are eligible for studies in a doctoral programme.

2.12. After the final list of invited candidates is announced, applicants who were not accepted into state-funded study places, but who meet the requirements for doctoral studies, can choose fee-paying doctoral study places and study paying a tuition fee set by the institution.

2.13. Candidates invited to doctoral studies sign a bilateral agreement with the doctoral institution. The original admission documents specified in the article 3 must be presented for the verification at the time of signing.

ASSESSMENT OF SCIENTIFIC PUBLICATIONS

Type of scientific work	Measurement unit	Points
Scientific monographs, studies or their chapters	Quires* x author's input**	2
Scientific articles in publications in the field of Law Science , referred in <i>Clarivate Analytics Web of Science</i> and (or) <i>Scopus</i> databases	Author's input	10
Scientific articles in publications, referred in <i>Clarivate Analytics Web of Science</i> and (or) <i>Scopus</i> databases	Author's input	7
Scientific articles in publications, referred in other international databases	Author's input	3
Scientific articles in other peer-reviewed scientific publications	Author's input	2
Scientific articles in cultural, art and professional publications; in conference proceedings	Author's input	1

* One quire = 40 000 characters (including spaces) of the text; if it impossible to establish the volume in characters, 14 pages shall be considered as an equivalent of a quire.

** Author's input (AI) is calculated according to the formula: $AI=1/NA$, where NA is the total number of authors of the article. For example, if the number of authors is 4, one author's input is worth 0.25, i.e. $AI = 1/4 = 0.25$.

Peer-reviewed publication is a periodic, serial, or one-time publication having an ISSN or ISBN number where research papers are published based on written conclusions of peer-reviews that can be proved.

Scientific article is an article published or submitted for publication (with the certificate from the editorial board) in a peer-reviewed scientific publication, written in compliance with requirements for a scientific article in a particular science field (footnotes, bibliography, formulas, drawings, description of methodology, statistic tables, and etc.), and corresponding to the scientific criteria, recognised in that science field; the minimum scope valid is 0.25 of the quire.
