## THE UK AND ITALY : CO-CHAIRS OF COP 26

Italy is co-chair with the United Kingdom in the organization of the 26th Conference of the Parties to the Framework Convention on Climate Change (COP26 UNFCCC) and has hosted the related preparatory and collateral events such as 'Youth4Climate:

In addition to the priorities set by the UK, Italy has paid special attention to the involvement of young people in the decision-making processes related to climate matters and the African continent, which is one of the geographical areas most affected by climate change.

The Climate Limbo explains the link between climate change and migration.

Through the stories of Queen, who fled Nigeria because of the damage caused by oil on the environment, Rubel, who fled the floods in Bangladesh, and Francesco, Luigi and Carlotta, Italian farmers and breeders facing the problem of desertification and loss of biodiversity in Italy, the film aims to document how climate change will push more and more people off their land.
