

STUDENT FEEDBACK - SOSO DARCHIA

“

Before coming to MRU, my friends told me that **Vilnius was a beautiful city** with lots of great opportunities for international students. One of my friends came to MRU as an Erasmus student last year and enjoyed the experience. She encouraged me to go to Vilnius.

When I first arrived at MRU and first met my mentor, we discussed some interesting tasks relating to my traineeship. She told me about **upcoming conferences and activities relating to EU projects**. I immediately felt the motivating spirit of MRU.

Currently, I am doing research about *protection of employees in pre-insolvency and restructuring situations*. This is very interesting and useful for me. It is also a **great challenge** because this is a new sphere of Law and it's developing day by day.

It is exciting to be here at MRU because it is a **great opportunity to improve my professional skills, to face new challenges and to try myself in different areas**. It's a great thing to work on a European Union project.

MRU gives me the possibility to work in a professional environment - searching and using resources within the University and also to meet the professional lawyers that lecture here. **That is a big motivation for a law student**. For a future lawyer, it is a great opportunity to **gain practical knowledge and professional skills** that I will be able to use in the future.
