

*...I highly recommend trying the Erasmus students exchange and visiting the Czech Republic!*

It was a great adventure for me to discover Czech culture and the learning environment. Masaryk University (MUNI) is one of the best universities in Czechia, and for 5 months, it became my second home. All faculties are well-equipped and have nice libraries. I was a student of the law faculty, and I liked that place. There are some shops and cafes near the park, a huge local library which you also can visit as an Erasmus student, and one of the university's dormitories. Other dormitories and university facilities were comfortable, too. They all are situated near bus/tram stations or some MUNI faculties.

University administrative staff and teachers were nice and supportive, they respect diversity and your needs. Teachers taught us more not only about the subjects but also helped us to assimilate into local society. So, you easily can become friends with locals or other international students. Erasmus is an amazing opportunity for studying, networking, self-development, friendship, and traveling. Brno is an especially great place for traveling around Europe since it is situated pretty close to Vienna, Dresden, Krakow, Bratislava, Budapest, etc. Moreover, there are many beautiful places in the Czech Republic to visit such as Prague, Cesky Krumlov, Karlovy Vary, and Olomouc.

To sum up, I enjoyed being an Erasmus student in Czechia. I found some new friends, visited a lot of wonderful places, and learned something new and useful, of course. Therefore, I highly recommend trying the Erasmus students exchange and visiting the Czech Republic!
