

STUDENT FEEDBACK OF ERASMUS+ TRAINEESHIP

ALESIA KRUK

STUDY CYCLE: BA

SUBJECT AREA: GRAPHIC DESIGN

FACULTY IN THE INSTITUTION: HUMAN AND SOCIAL STUDIES

MOBILITY ACTIVITY FOR TRAINEESHIPS AT "ENGLISH CAFE MALTA" , MALTA

Country

Malta is a beautiful sunny country surrounded by the Mediterranean Sea. Malta has many beautiful beaches suitable for swimming and diving. Malta has a very rich culture and history that can be explored by traveling to all corners of the country. I would also like to note that the people of Malta are very open, sociable and kind, so don't worry about finding friends. The main language of country is English, so it is perfect opportunity practice it. My favorite place was the former capital of Malta, Mdina. Mdina is the best preserved fortified city in Europe, it is a real architectural treasure.

Tasks and Responsibilities

I did my internship at English Cafe Malta. This company organizes events every day for students and for people who want to improve their English or find international friends. I was responsible for the visual content of the company (posters, promotional banners, brand identity, illustrations, etc.). Nevertheless, during the evenings, I took active part in managing all events.

Personal Development

I am very glad that i had such valuable experience in my life. Firstly, it gave me an opportunity to test my skills and work on real work projects. Also during this traineeship i improved not only English profficiency but intercultural

communication as well. I met many foreigners and learned more about different cultures and values.

I advise everyone not to be afraid but to apply now to have such unforgettable experience!
