

CUNEF

UNIVERSIDAD

We are excited to announce the launch of our Summer Artificial Intelligence Program, designed for students eager to immerse themselves in the world of AI. The program will take place over three weeks, from June 30th to July 18th, and provides an excellent opportunity to learn from experts, work on cutting-edge projects, and network with peers.

Program Highlights:

- **Dates:** June 30th to July 18th (3 weeks).
- **Classes:** morning sessions focusing on AI theory and practical applications.
- **Company visits:** each week, students will visit a company related to the course. These visits are mandatory as they complement the course content.
- **Cultural activities:** on weekends, we'll offer optional cultural activities such as museum visits and city tours to explore the local area.
- **Tuition fees:** 1800€ (10% reduction for students from partner universities)
- **Accommodation:** we offer single rooms with air conditioning and breakfast included, located in a residence directly across from the School of Engineering. Students are welcome to book their own accommodations if preferred.

Registration: students can find more information and register directly through our website: [AI summer program](#).

Please note that registration will be open until the end of April. After this date, availability will depend on the program's status. You can use this [link](#) to register

This is a fantastic opportunity to enhance your knowledge of AI, gain real-world insights, and explore the city!

If you have any questions or would like further details, don't hesitate to reach out summer@cunef.edu.

We look forward to welcoming students to our program this summer!
