

Vigour and an innovative approach – that's what **Kurk Lietuvai** is all about. For one year you will carry out breakthrough projects in the Lithuanian public sector on topics that interest you – from economy and innovation to security, environmental protection, education and many others.

Kurk Lietuvai is your opportunity to turn problems into solutions, and solutions into changes in the country or even in the world.

Why should you join

- You will initiate changes in the areas that matter to you on a national level.
- You will present and improve your solutions together with the highest-level officials of the country.
- You will strengthen your professional competences by leading projects in various fields and with professionals from various disciplines.
- You will expand your network.
- Acquired skills and achieved results can significantly contribute to your further career in Lithuania.
- The experience of participating in the programme is extremely individual. Some participants emphasize professional development, others are happy to discover new areas of interest, and others are proud of the achieved results/changes.

What we expect from you

- Bachelor's or higher academic degree.
- At least 2 years of work experience.
- Analytical, interpersonal communication skills.
- Having project management skills is an advantage.
- Growth mindset, motivation to look for innovative solutions and take 100% responsibility for the success of the project.
- Fluency in English is required. Proficiency in Lithuanian will be considered an advantage.
- International study and/or work experience is an advantage.

What we offer

- Gross salary 2600 EUR per month, corresponding to the responsibilities and duties of a public sector project manager, and all social guarantees.
- One-year contract at Invest Lithuania, full-time.
- 20 days of annual leave and 7 additional days off (total of 27 days off per year).
- Training package.
- Possibility to create changes in the Lithuanian public sector, in different national or regional level institutions.
- There is a possibility to implement the project in Lithuanian or English.
