

## Junior Supply Specialist-Intern

### DESCRIPTION

Ruptela is a telematics company that develops and provides advanced fleet management and GPS tracking solutions. We are a fast-growing, customer-oriented organization with a mission to ensure the most efficient use of transport globally. Our team designs, develops, and manufactures both hardware and software for vehicle tracking and fleet control. We offer ready-to-use telematics solutions that help our clients improve operational efficiency and sustainability. Our vision is to create a sustainable future by optimizing the transport sector worldwide.

We are currently looking for a **Junior Supply Specialist-Intern** to join our ambitious and friendly team. This is a great opportunity to gain international experience, deepen your knowledge of telematics products, and work in a dynamic, multicultural environment.

### RESPONSIBILITIES

- Performing initial/supporting tasks;
- Updating data in internal systems;
- Processing and updating purchase orders;
- Managing and sending backlog reports to suppliers;
- Ensuring accurate data management and maintenance.

### REQUIREMENTS

- Strong attention to detail;
- Motivation and eagerness to learn and grow;
- Ability to learn new technologies, processes, and procedures quickly and efficiently;
- Good English skills (B1-B2 level).

### COMPANY OFFERS

- Modern working methods and best practices;
- Work with one of the most innovative IT products in an international market;
- Personal and professional learning opportunities;
- A modern, well-equipped office with complimentary coffee, tea, fruits, cookies, and various lounge areas and activities.

→ Internship duration: 3–6 months, with the possibility of a job offer after the internship.

→ We offer a part-time internship (0.5 or 0.75 FTE, depending on availability).

→ This is an unpaid internship intended to provide valuable hands-on experience.
