
STATICUS

Staticus is one of the largest full-service façade contractors in Europe. We design, produce and install curtain walls that are high-quality, sustainable, and use cutting-edge façade systems to deliver bespoke projects. We achieve this by combining our more than 20 years of experience with an innovative and agile approach.

Legal Intern

As a Legal Intern at Staticus, you will work in direct collaboration with our Chief Legal Officer (CLO) and gain hands-on experience in supporting legal and compliance activities across an international business environment.

Your future role

- Support the CLO with daily tasks and ongoing legal projects.
- Assist in preparing, reviewing, and organising legal documents in both Lithuanian and English.
- Help monitor regulatory updates and compliance requirements.
- Contribute to drafting internal policies, contracts, and corporate documentation under supervision.
- Perform repetitive but essential administrative and legal tasks with persistence and accuracy.

What do we expect from you?

- Strong written and spoken communication skills in Lithuanian and English.
- A Master's student in Law (currently studying).
- A curious mindset and eagerness to learn.
- Attention to detail and accuracy in your work.
- Persistence and ambition to finish what you start.
- Willingness to engage with repetitive tasks as part of the learning process.

What do we offer?

- **Learning & Development:** Practical experience working closely with the CLO, gaining real insight into international legal and compliance work.
- **Mentorship:** Direct guidance from our CLO to help you grow and build a strong professional foundation.
- **Flexibility:** Opportunities for flexible hours and hybrid work to support your studies.
- **Company culture:** A non-hierarchical, international, and innovative environment where your curiosity and contributions are valued.

Why join us?

- **Market Pioneers:** We work on bespoke projects across Europe, partnering with worldfamous architects and general contractors. We are committed to robust future expansion and have solid plans for future growth in other markets including Austria, the Netherlands, and the United States of America.
- **Benchmark-setting Projects:** The projects we work on setting new standards for aesthetics and performance. Our high-end projects have an average value of EUR 30 million and feature tailored engineering solutions.
- **Innovative Approaches:** Our R&D team is on a relentless quest to pioneer innovative and sustainable solutions. For example, we designed, produced, and installed the first closed cavity façade in Northern Europe.
- **Non-hierarchical Structure:** As part of a company that offers a full value chain, you'll have the rare opportunity to influence every stage of a project's lifecycle. From conceptualization to execution, your contributions will shape the entire process.
- **Diversity:** In our international company, team members share a global mindset.

How to apply

Please send your CV and motivational letter to our People Partner at
