

My Erasmus Experience by:

Živilė Pocevičiūtė

“Moving to Torino came with challenges, but it has turned into an incredible Erasmus experience.”

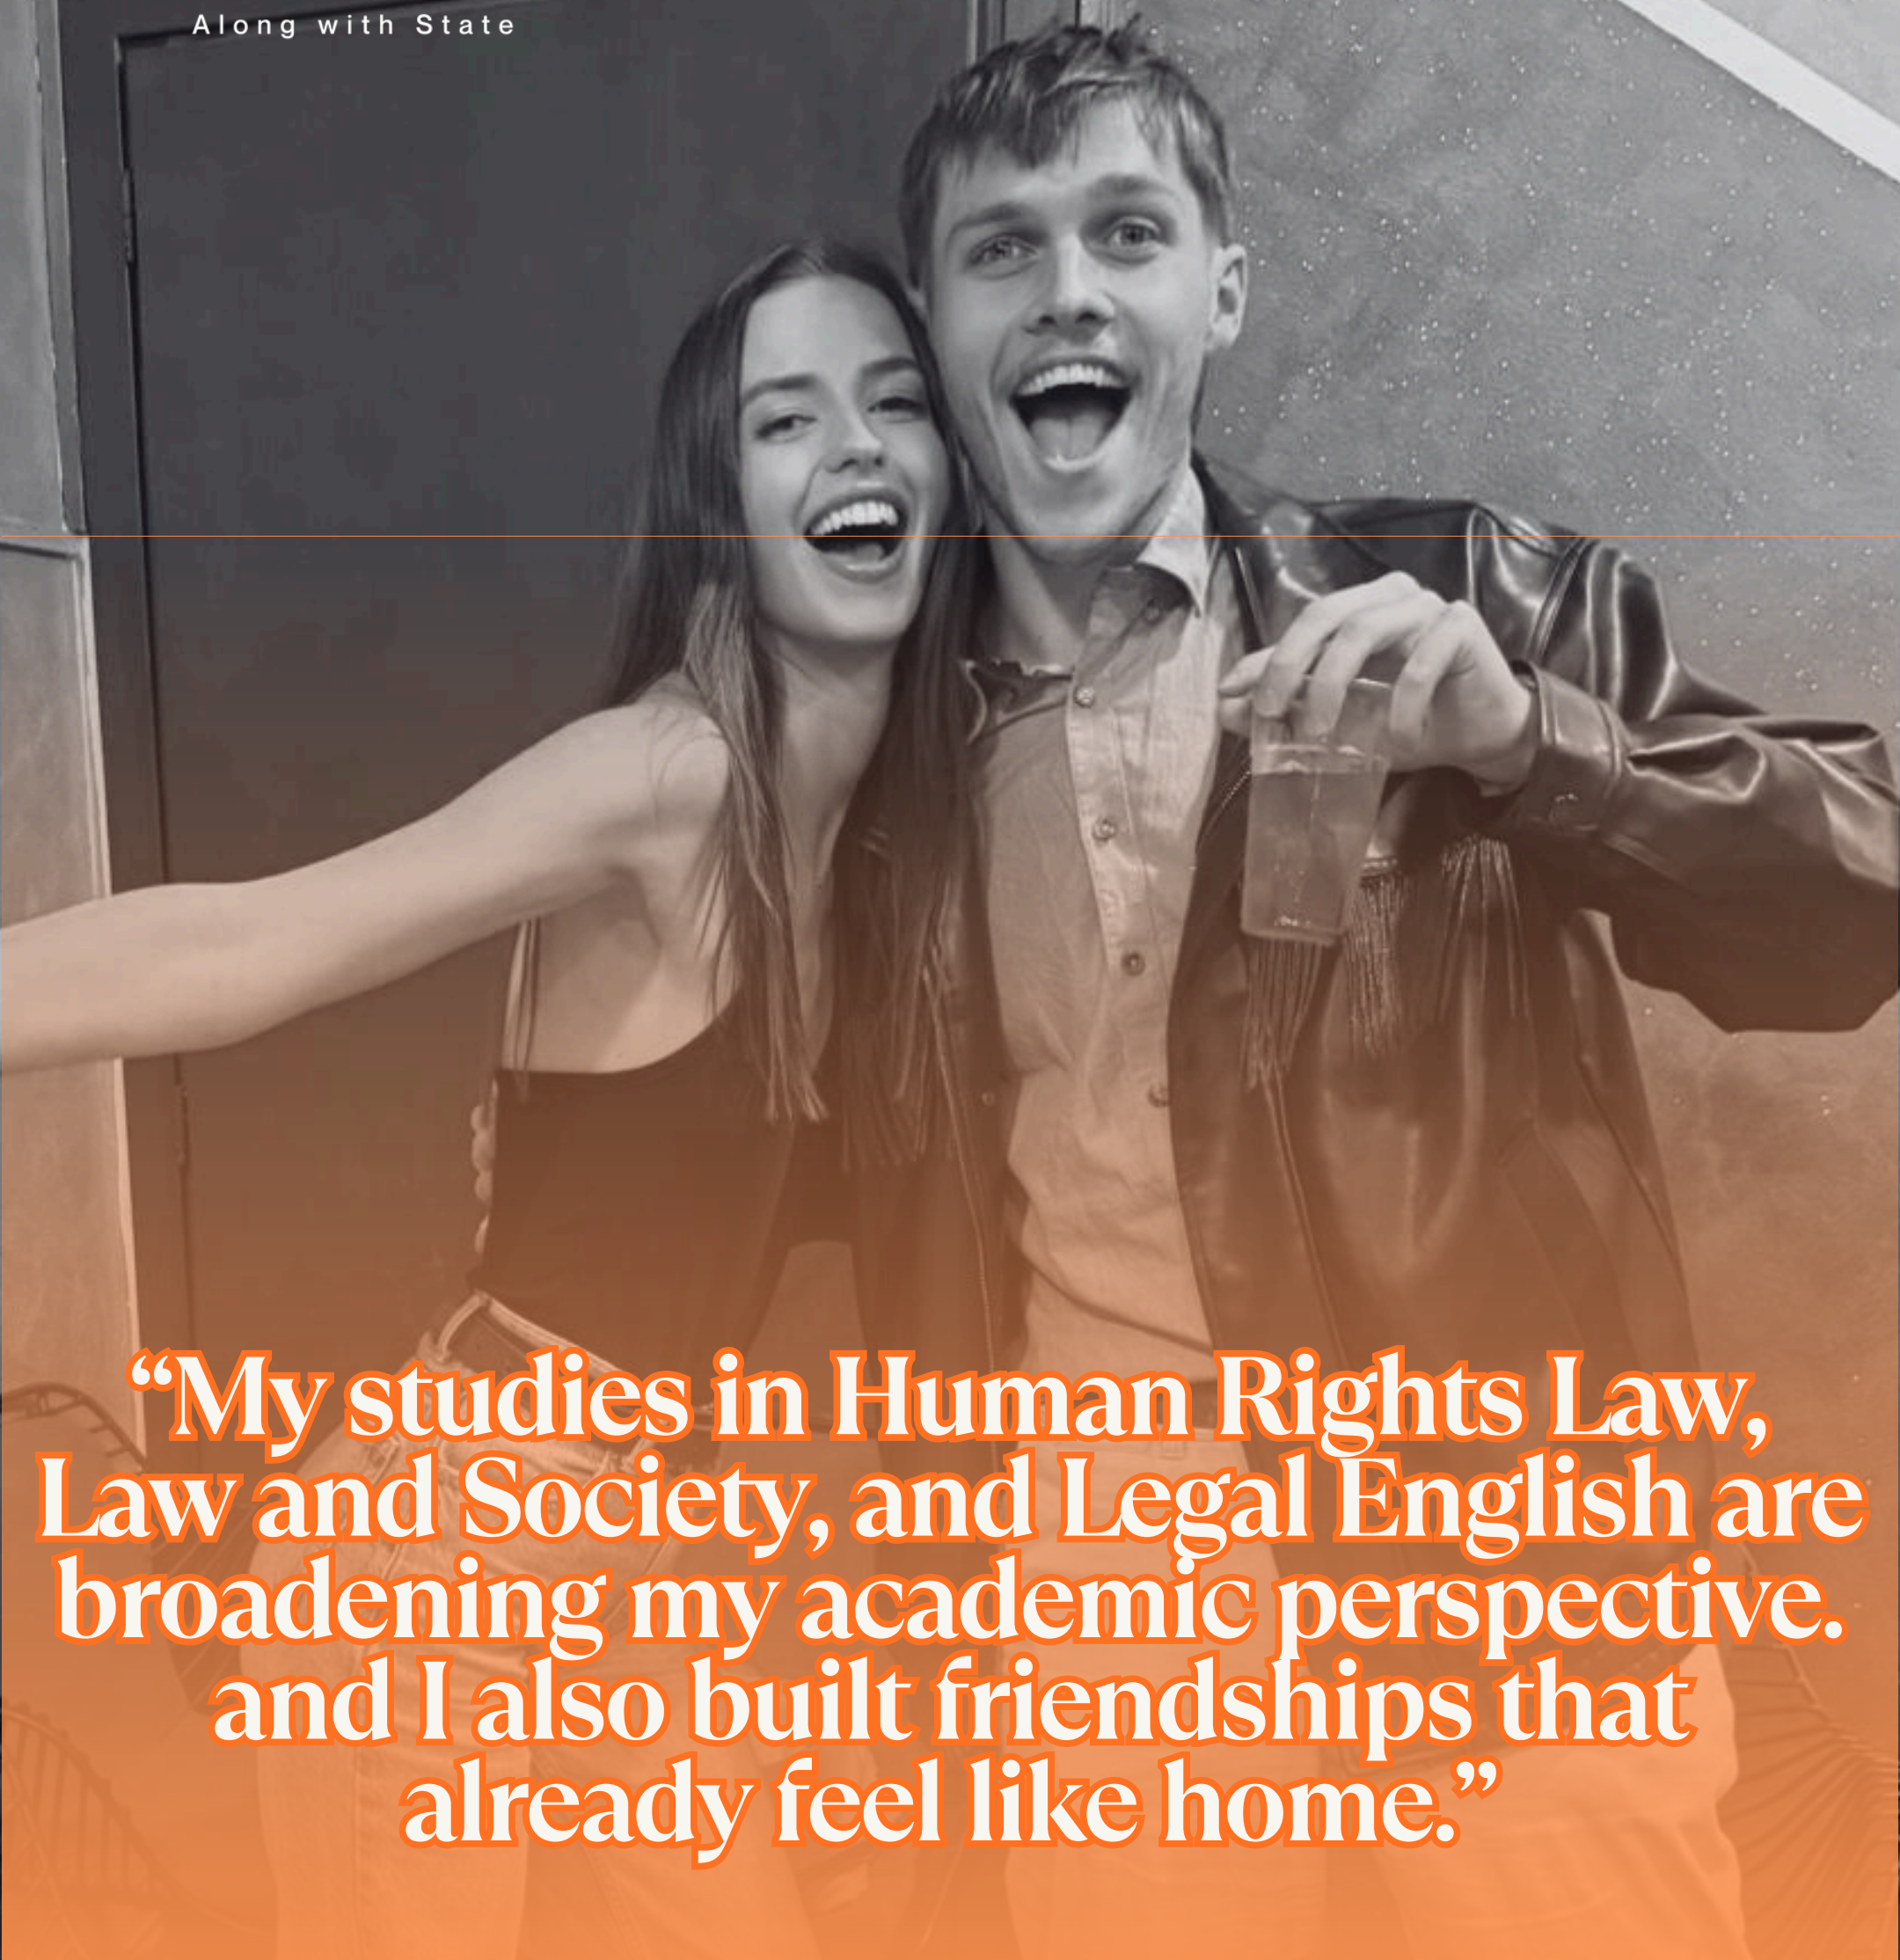

“I’m enjoying this beautiful city, its culture, and of course, amazing Italian food. I even ran the Torino City Half Marathon”

Along with State

“My studies in Human Rights Law, Law and Society, and Legal English are broadening my academic perspective. and I also built friendships that already feel like home.”

“Living in a new environment has made me more independent, capable, and aligned with who I want to become.”

“This exchange has strengthened my adaptability and helped me grow both personally and academically.”

**My advice to future students:
take the opportunity—don't
overthink it—and as Nike says,
“just do it.”**

Don't miss anything!
