

INVITING TO-BE GRADUATES

Apply for Erasmus+ mobility for internships in EU countries before graduation to gain work experience after completing your studies!

TRAINEESHIP PERIOD:

*Internship period – 2 months.

Selected graduates can plan to complete their internship within 12 months of completing their studies.

The internship must last at least 130 hours and no more than 160 hours per month.

GRADUATE TRAINEESHIP

The Erasmus+ graduate internship program offers students the opportunity to complete an internship after graduation.

Full-time and part-time MRU students of all levels who are in their final semester of study and whose 2-month* internship would take place after completing their studies at the university are eligible to participate in the selection process for mobility internships. This is a great opportunity for final-year students to start gaining valuable experience after graduation (date of obtaining a diploma). **Also, the internship should start at least 2 months after the application is submitted.**

Students who are graduating this semester should apply for a scholarship through their **MRU study book** once they have found an internship **(or, in extreme cases, have not yet received confirmation from the organization agreeing to accept them).**

You can find the deadlines in the "DEADLINES AND APPLICATION PROCESSES" section.

Those wishing to undertake an internship after graduation must submit their application while they are still registered as students at Mykolas Romeris University.

***** After completing your studies, you will no longer be eligible to participate in the selection process and/or be selected.**
