

VolEver: Connecting Volunteers and Ukrainian Refugees in Lithuania

The Refugee Council of Lithuania introduces VolEver — a mobile application designed to connect Ukrainian refugees with volunteers ready to provide practical support.

Through the app, users can receive support such as:

- Language practice
- Accompaniment to administrative institutions
- Help navigating the city and services
- Everyday practical support
- Online guidance and consultations

Volunteers can easily offer their time, knowledge, and skills — making a real difference in people’s lives and supporting community integration.
