

AI Commercial & PR Assistant

Paid part-time role for a student or junior person in Lithuania

€500/month

~10 hours/week

Flexible schedule

Start ASAP

About Daisoro

Daisoro is an early-stage AI data startup building structured, evidence-backed datasets for high-value business use cases. Our first focus is telecom pricing and promo intelligence.

What you will help with

- Find and organize B2B prospects: telecom, AI, data, consulting and market-intelligence buyers.
- Draft LinkedIn and email outreach messages for founder review.
- Support PR and social media: LinkedIn posts, founder comments, media lists and simple content ideas.
- Monitor AI, telecom, data and startup news, then prepare short daily updates.
- Use AI tools heavily to research, draft, summarize and move faster.

Best fit

- Student or junior person based in Lithuania.
- Studies or interest in marketing, communications, business, economics, data, journalism or similar.
- Strong written English, good organization, reliability and curiosity about AI/startups.
- No major experience required - we care more about clarity, speed, taste and ownership.

How to apply

Send your CV or LinkedIn profile, plus 3-5 sentences on why this role interests you.
