Erasmus+ Experience in Romania

Introduction

Participating in the Erasmus+ Blended Intensive Programme in Romania was an enriching experience that helped me develop academically, professionally, and personally. It gave me the opportunity to meet students from different countries, exchange ideas, and learn in an international environment.

Academic Activities

During the programme, I participated in workshops, presentations, and teamwork activities. Working with international students helped me improve my communication, collaboration, and problem-solving skills. The programme also allowed me to gain new knowledge and perspectives related to my field of study.

Visit to the Romanian Parliament

One of the most memorable experiences was our visit to the Romanian Parliament in Bucharest on the second day of the programme. It was interesting to learn more about the country's political system and to see one of the largest and most impressive administrative buildings in Europe.

Exploring Bucharest and Its Parks

During the programme, I had the opportunity to explore Bucharest and discover its culture, history, and architecture. Visiting the city's landmarks helped me better understand Romanian heritage and daily life. In my free time, I also visited several parks in Bucharest, where I enjoyed walking, relaxing, and appreciating the city's green spaces. These experiences allowed me to see different aspects of Bucharest and made my stay even more memorable and enjoyable.

Intercultural Experience

Meeting students from different countries was one of the highlights of the programme. I learned about different cultures, traditions, and perspectives, which helped me become more open-minded and confident in international settings.

Certificate Ceremony

At the end of the programme, we received our certificates of participation. Receiving the certificate was a proud moment and a recognition of our work, engagement, and contribution throughout the mobility experience. It marked the successful completion of an unforgettable Erasmus+ journey.

Conclusion

Overall, my Erasmus+ experience in Romania exceeded my expectations. It improved my English language skills, strengthened my teamwork abilities, and provided unforgettable cultural experiences. I would highly recommend Erasmus+ mobility programmes to other students who wish to learn, travel, and grow both personally and professionally.
