

Interactive Discussion:

Digital Twins for Civil Protection: Risk Awareness and Societal Preparedness

“Join an interactive discussion exploring how Digital Twin technologies can support civil protection, strengthen risk awareness, and enhance societal preparedness for emerging threats and crises. The discussion is particularly relevant for the education and research community, educators, researchers, students, and professionals interested in digital technologies, resilience, risk management, and civil protection”

Led by Prof. Dr Aelita Skaržauskienė and Lecturer Gintarė Gulevičiūtė (Institute of Communication, Faculty of Human and Social Studies, MRU)
